

**Lucky Break** is standard house-banked blackjack but with an optional bonus wager. All rules pertaining to blackjack will remain the same and are not altered in this game.

### **Introduction**

Lucky Break may be played with one to eight decks of cards. All house rules apply to the game, with the addition of the Lucky Break bonus bet procedures described in this document.

### **Wagering**

Lucky Break wagers must be placed within the Lucky Break wagering circle at the same time the blackjack wager is made. Players must make a blackjack wager to make a Lucky Break wager.

Players are not permitted to make a Lucky Break wager on another player's hand. If a player is playing multiple hands, they may make a Lucky Break wager for each hand they are playing.

Lucky Break wagers may not exceed the posted maximum for the Lucky Break wager.

## **Dealing**

If the dealer's up card is an Ace or ten-value card, the dealer shall check his hole card for a blackjack. Dealers will offer insurance before checking under the Aces per standard Blackjack procedures. If the dealer has a blackjack, all Lucky Break bonus wagers lose.

If a player who made a bonus wager has a blackjack and the dealer does not have a blackjack, the dealer will pay the player's blackjack wager, tucking the player's two cards face up under the player's bonus wager to indicate that the bonus wager remains in action.

If a player who made a bonus wager busts, the dealer will collect the player's blackjack wager and put the player's cards together in a pile, tucking them face up under the player's bonus wager to indicate that the bonus wager remains in action.

**Note:** As long as there are Lucky Break bonus wagers remaining in action, the dealer must complete his hand so the outcome of the bonus wager can be determined. This is done even if all the players have busted and/or received a blackjack.

## **Payoffs**

If the dealer's completed hand does not exceed 21, all Lucky Break wagers lose.

If the dealer's completed hand exceeds 21, and the player's point total is 26 or less, the dealer will pay all bonus wagers based on the number of cards in the dealer's hand (see pay table for odds).

Multipliers are paid based upon the base winnings for the Lucky Break wager. For example, if the player's Lucky Break wager is \$1 and the dealer's outcome is a 26 with 5 suited cards, the player will be paid \$3 for the Lucky Break wager and \$150 for the multiplier using pay table 1.

### **Token Bets**

Players may make Lucky Break token bets for dealers.

- Payoffs for token bets are paid using the same pay schedule used for player.

Dealer Outcome	Base Pay 1 (to 1)	Base Pay 2 (to 1)	Base Pay 3 (to 1)	Base Pay 4 (to 1)
